

A schematic diagram of a human torso showing the shoulder and heart areas. A 'Portable Extender Device' (20) is shown as a rectangular box with a strap (18) and a circular component (10) positioned over the shoulder joint. A dashed line (14) indicates a path or boundary. A small rectangular component (11) is located within the circular component (10). A lightning bolt symbol is shown near the device, indicating electrical activity. The heart is labeled 12, and a portion of the rib cage is labeled 16.
